SAMPLE REPORT — fictional data

Summary for parents

This term your child received support in maths on operations with fractions. The re-check shows progress; the topic has not fully settled yet and sits at a partial level.

Ratio and proportion depends on fractions, so the next step is there. Percentages have reached a proficient level.

Teacher-approved suggestion: short, regular fraction practice at home may be enough; we are not suggesting extra load. Evidence level: medium.

How to read status

Colour shows the level, the arrow shows the direction of change. Read them together: an outcome can be both “Needs support” and “improving”.

- Proficient
- Partial
- Needs support
- Not enough data
- ↑ improving
- → no change
- ↓ declining

Teacher’s note

This area is filled in by the teacher.

Evidence level: medium · Source: 6 and 29 October checks, support records

SAMPLE REPORT — fictional data

Leadership summary

Fictional data · Grade 7 mathematics · 3 campuses · 28 October

This week's priorities

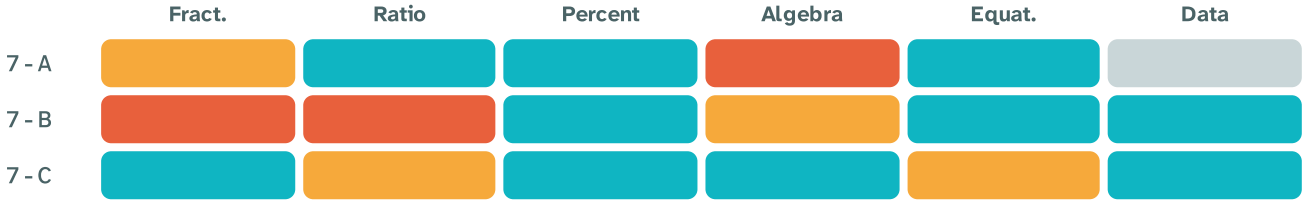

- Grade 7 fractions need support at 3 campuses again.
  Suggested: a shared support plan
- Grade 8 algebra, two checks running: ↓ declining
  Suggested: a short check with the department
- 7-A data analysis: limited evidence.
  Suggested: a short check

Campus summary

Grade 7 · Operations with fractions

Campus	Level	Support plan
Campus 1	Needs support	In progress
Campus 2	Partial	Planned
Campus 3	Needs support	Pending
Campus 4	Proficient	—

Class summary for the department meeting

Support follow-up

8 Planned support **5** Carried out **2** Re-measured
